MD Viewer — Demo

Welcome to **MD Viewer**, a lightweight Markdown viewer & editor. This file shows off what the renderer can do. Toggle **View / Edit** in the toolbar, flip the theme with the 🌓 button, and open the **Contents** sidebar with ☰.

Text formatting

You can write **bold**, *italic*, ***bold italic***, ~~strikethrough~~, and `inline code`. Links open in your browser: neutralino.js.org.

> Blockquotes look like this.
>
> — with multiple paragraphs, too.

Lists

1. Ordered item one
2. Ordered item two
3. Ordered item three

Task list

- [x] Set up the project
- [x] Render Markdown neatly
- [ ] Ship the EXE

Table

Feature	Status	Notes
Rendering	✅	GitHub-style via markdown-it
Syntax highlight	✅	highlight.js
Math	✅	KaTeX
PDF export	✅	one-click file (Ctrl+Shift+P)

Code with syntax highlighting

```
function greet(name) {
  const message = `Hello, ${name}!`;
  console.log(message);
  return message;
}

greet("Markdown");
```

```
def fib(n):
    a, b = 0, 1
    for _ in range(n):
        a, b = b, a + b
    return a
```

Math (KaTeX)

Inline math renders like $E = mc^2$ and $\sqrt{a^2 + b^2}$ right in the text.

Block math is centered on its own line:

$$\int_{-\infty}^{\infty} e^{-x^2}\,dx = \sqrt{\pi}$$

$$\frac{\partial}{\partial t}\Psi = \frac{i\hbar}{2m}\nabla^2\Psi$$

Blockquote with code

> Run the app in development mode:
>
> ```
> npm run dev
> ```

Horizontal rules & emphasis

That line above is a horizontal rule. Below is a final note.

Thanks for trying MD Viewer! 🎉
